

In the month of May, each pod is going through a series called “Anthem!”

There are opportunities to worship God everywhere, but they might easily be missed in a world full of images that show worship being done behind microphones and on stages. While that kind of worship is good, it isn’t the only kind of worship we need. The book of Psalms leads the theme of this series, and will help students find their unique “anthems” worshipping God **with all of creation**, while **remembering what God has done, even when it’s difficult**, and **because we’re God’s family!**

Please help your students participate, learn, grow, and encourage one another by taking part weekly in our times together.
